TECHNICAL INSPECTION

It is imperative that you have a track ready and safe car to drive at our event. Driving a car that is not ready puts you and others at risk of injury or death. We ask that you thoroughly inspect your car for at least the following items and ensure all items are ready to go. **Check all items that are in compliance.**

Brakes		Engine	
Brake pads at least 60% remaining		No fluid leaks	
Brake fluid level at full mark		Battery securely fastened	
Brakes have been bled as needed		Hoses in good condition	
No brake fluid leaks in system		All fluid levels OK	
Firm brake pedal action		All belts in good condition	
Wheels and Tires		Interior	
All lug nuts present and properly torqued		Seats tight without any play	
Wheel center caps removed		Seat belts working properly	
Tires free of damage and in good condition		Harness system installed properly	
Safety		Steering	
Seat Belts or Harness in good condition		No play in steering wheel	
No loose items on exterior of car		Proper alignment	
Long sleeve, cotton shirts / pants		Power steering fluid full	
All loose objects removed including floor mats		All suspension components free of damage	
Convertibles		Helmet	
Roll Bar provided		SA 2000 or newer	
"Broom Test" Passed		Good Condition	

➤ A tech sticker will need to be attached on your windshield by our staff. You will not be permitted on track without this tech sticker on your windshield.

This form must be completed and all items marked as working properly. Cars with defects at tech inspection will not be permitted on the track until all defects are corrected.

I have inspected the above vehicle and agree to take full responsibility for it's condition and readiness for the track. I also agree that any damage done to the track facilities by my car, used fire extinguisher, absorbents etc. will be my responsibility with payment made to 10/10 Motorsports, LLC.
